

### **Stian Hætta Fjellheim – HSEQ Manager at Gefion Nordic Norway AS**

It is a great pleasure to welcome Stian Hætta Fjellheim, as our HSEQ Manager at Gefion Nordic Norway AS.

As part of the strategy to improve and extend HSEQ activities and competences within our portfolio of services, Stian Hætta Fjellheim, has joined us.

With a large range of experience and knowledge within all segments of HSEQ, Stian Hætta Fjellheim will implement physical as well as theoretical tools into the existing organization.

As a natural supplement to our services within Personnel, Technical and Course support, HSEQ will add yet another stage of competences to complete our product line.

The main areas within HSEQ are:

- HSEQ Goals, HSEQ Programs, HSEQ Bridging Documents, HSEQ Action Plans and HSEQ Campaigns
- Emergency Preparedness & Response; organization, manuals, counseling and training/exercises
- Rig intake, with focus on AoC
- HSEQ training courses
- Development of governing documents and procedures
- General HSEQ support for onshore and offshore organization, daily monitoring and follow-up
- HSEQ Consultants e.g. HSEQ Manager, HSEQ Coordinator, Offshore Medic, Safety and Performance Coach and Occupational Hygienist

With HSEQ activities added, our range of services ensure all operations are performed within the Gefion philosophy – Performance the Safe Way!

We welcome all existing as well as new clients to our extended portfolio and look forward to contribute to operational optimization and high performance the safe environmental way.

**Your partner in HSEQ**
